AUTONOMOUS DRONE RAIL YARD INVENTORY MANAGEMENT

Key Benefits

- **Fully Autonomous** Drones eliminate the need for manual logging or RFID scanning.
- **Real-Time Accuracy** Instantly track wagon locations and movements.
- **Error-Free Inventory** Removes human mistakes and misplacements.
- **Cost-Effective** Reduces labor costs and optimizes yard operations.

What's Included

- Solution As A Service
- No Capital Purchase
- Includes Maintenance Support

Competitive Edge

- **Advanced Autonomous Drones** DJI Dock 3 & Matrice 4D enable precise aerial asset tracking.
- **Seamless Integration** Works with existing yard management systems.
- **Scalable & Future-Ready** Tracks thousands of wagons with 3D OCR precision.

VisAbility Solutions - SmartMarker™ combines AI-driven computer vision with cutting-edge drone automation to deliver unmatched efficiency, accuracy, and real-time visibility, making it the ultimate rail yard tracking solution.
